The energy that brought it seemed to have been absolutely expended. At the mere sight of the train the people who had been waiting there for hours were greatly affected. Men sobbed and women wept.

For a full minute after it had stopped no one appeared. Judge Day and his committee moved slowly down the platform in front of the line of soldiers to the catafalque car and waited. Sud-

Procession Moves.

The shrill notes of the bugles had given the first sign to the waiting multi-tudes outside the station that the casket was approaching. Instantly the long lines of soldiers became rigid, standing at present arms. The black horses of the Cleveland Troop immediately facing the station stood motionless, their riders with sabres lowered.
